

PERSONAL PROFILE

I am a third-year Industrial Engineering student at Chulalongkorn University who interested in programming and optimization. I believe that my personalities included hard working, patient and humble could make an impact for the company.

SKILLS

-Programming: Python, Visual Studio -Database & Coding: HTML, PHP, SQL

-Languages: Thai, English

-Computer skill: Word, Excel, Powerpoint, Access

EXTRACURRICULAR ACTIVITIES

- Member, Intania Football Club
- Staff, Pre Engineer camp for high school
- 'larngear camp 2019' of the Faculty of Engineering

GET IN TOUCH WITH ME

Cell: 090-398-9688

Email: Kawipat41@gmail.com

Address: Chulalongkorn Dormitory (Chuanchom)

Phayathai Road, Pathumwan, Bangkok 10330 Thailand

KAWIPAT DABTONG

INTERNSHIP 2021

EDUCATION

Chulalongkorn University

Bechelor of Industrial Engineering, 2018 - Present

- GPAX 3.10
- Computer programming (Python) Grade B+
- Engineering Statistics I Grade A
- Mostly studied in Statistics, Management and Computer Technology

WORK EXPERIENCE

Application Developing Project

Nov 2019 - Dec 2019

- A project of course "Application Developing for Industrial Engineering"
- Create " Picture Puzzle Game " using Visual Studio

Statistical Project

Mar 2020 - Jul 2020

- A project of course "Engineering Statistics 2"
- Study Differences in the return on investment of each asset class using ANOVA.

Quality Management Project

Mar 2020 - Jul 2020

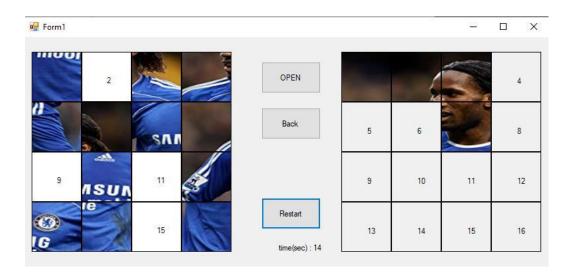

- A project of course "Quality Management"
- Analysed problem of block-chain in i-banking and create a new model by using QM and QC tools.

Computer and Information Technology Project

Oct 2020 - Nov 2020

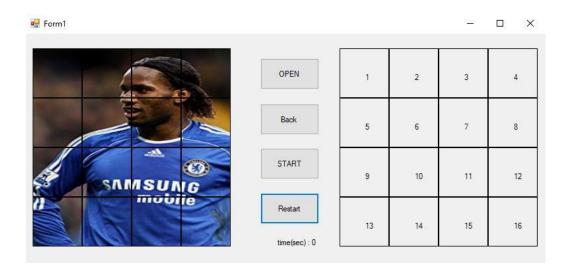

- A project of course "Computer and Information Technology "
- Create and develop a dormitory website by using HTML,PHP and SQL

Picture Puzzle Game

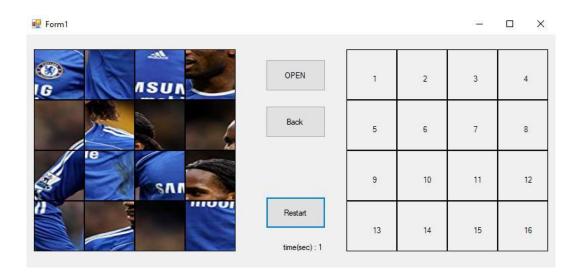

How to play

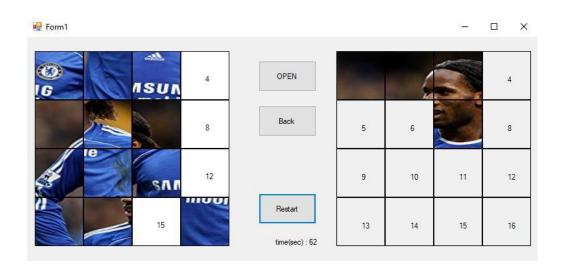

1. Upload a picture from your computer by the OPEN button

2. Click START to start the game.

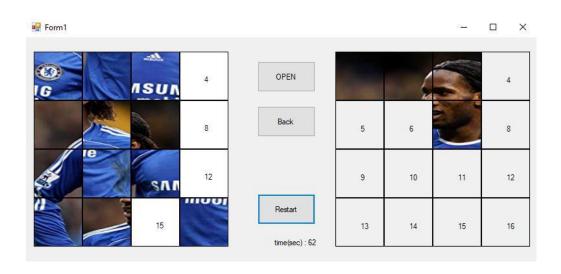

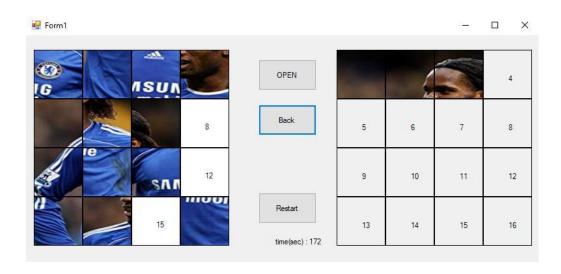

3.get start

3.1 Back function

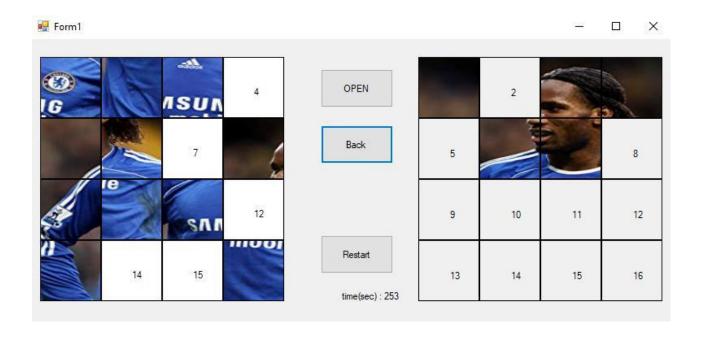

1.use Back button

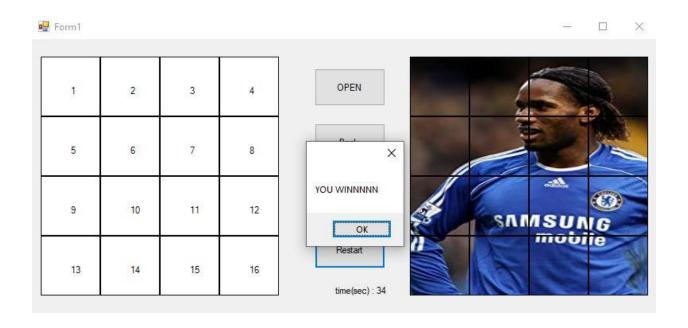

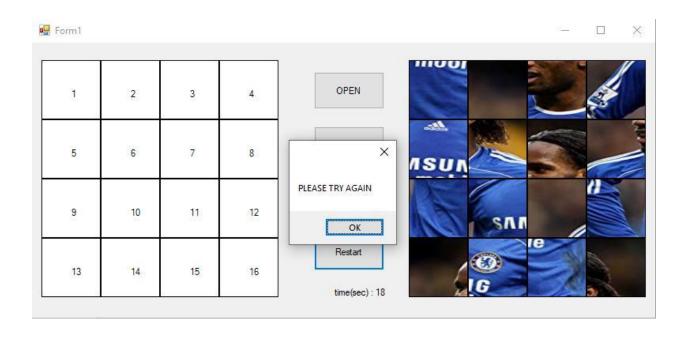

2. Click the section you want to back.

Form1			: -			£-	_ ×
G G	usuv	4	OPEN		6		
	7	8	Back	5			8
	SAA	12		9	10	11	12
14	15		Restart time(sec): 240	13	14	15	16

4. When you finished a game

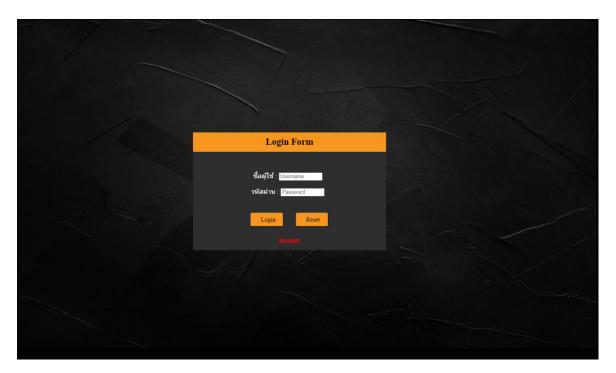

Example code

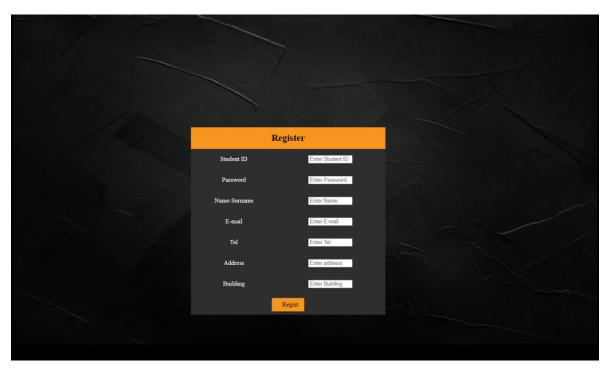

```
private void PictureBox1_Paint(object sender, PaintEventArgs e)
 68
                      if(startt())
 69
 70
                          Graphics G = e.Graphics;
 71
                          for (int i = 0; i < 4; i++)
 72
                              for (int j = 0; j < 4; j++)
 73
 74
                                   Rectangle rect = new Rectangle(i * 75, j * 75, 75, 75);
 75
                                  Pen pennies = new Pen(Color.Black, 2);
 76
                                  G.DrawRectangle(pennies, rect);
 77
 78
                          for (int k = 0; k < list_p3.Count; k++)</pre>
 79
                              Rectangle rect = new Rectangle(list_p3[k].X + 1, list_p3[k].Y + 1, 73, 73);
 80
 81
                              SolidBrush Brushies = new SolidBrush(Color.White);
                              G.FillRectangle(Brushies, rect);
 83
                              SolidBrush Num_text = new SolidBrush(Color.Black);
                              G.DrawString(([ist_p3[k].X) / 75 + 1 + 4 * (list_p3[k].Y) / 75).ToString(), Font, Num_text, new Point(list_p3[k].X + 36, list_p3[k].Y + 36));
 85
 86
 87
 88
                 private void PictureBox2_Paint(object sender, PaintEventArgs e)
 89
                     if (startt())
 90
 91
 92
                          Graphics G = e.Graphics;
 93
                          for (int i = 0; i < 4; i++)
                              for (int j = 0; j < 4; j++)
 95
 96
                                  Rectangle rect = new Rectangle(i * 75, j * 75, 75, 75);
 97
                                  Pen pennies = new Pen(Color.Black, 2);
 98
                                  G.DrawRectangle(pennies, rect);
                                  SolidBrush Num_text = new SolidBrush(Color.Black);
G.DrawString(NT[i,j], Font, Num_text, new Point(j * 75 + 37, i * 75 + 37));
 99
100
101
102
103
104
                 private void check()
105
106
                     Bitmap bm = (Bitmap)pictureBox2.Image;
107
                     Bitmap bm2 = (Bitmap)pictureBox3.Image;
108
                      if (list_p4.Count == 16)
109
                          for (int i = 0; i < pictureBox2.Width; i++)
110
111
                              for (int j = 0; j < pictureBox2.Height; j++)</pre>
112
113
                                  Color c = bm.GetPixel(i, i):
                                  Color c2 = bm2.GetPixel(i, j);
if (c.R == c2.R && c.G == c2.G && c.B == c2.B)
114
115
116
117
                                      p++;
```
